LIMITED WARRANTY / MARINE OUTBOARDS

A) CUSTOMERS OBLIGATION:

- Use only TCW 3 two stoke oil.
- Break in procedure should be followed strictly as per the instruction manual and an oil mixture of 25/1 (40ml 2 Stoke per 1 Litre Fuel) should be run for the first 10 hours. Thereafter normal 50/1 (20ml 2 stroke per 1 Litre fuel)
- Break in as follows: First 30 minutes not faster than $\frac{1}{4}$ speed, Next 30 minutes not faster than half speed, Next 2 hours not faster than $\frac{3}{4}$ speed, Last 7 hours can go full throttle but not for longer than 5 minutes at a time. Thereafter, use normally and mix oil 50/1.
- It is compulsory for the first service to be done by an authorised boat dealer after the first 10 hours of running or 3 months of date of purchase (whichever comes first) (service invoice should be kept as proof)
- You may change spark plugs after the first 10 hours of the breaking in period, reason being that the engine will still be running rich at this stage and may require to be changed or cleaned. (If not sure how to change the spark plugs, please refer to the instruction manual or request assistance from an authorised dealer)
- Second service at 50 hours or after 6 months after 1st service (service invoice to be kept)
- The motor should never be started outside the water or without a motor flusher.
- Always make sure that the cooling system functions properly, the water should be running through the water pump and out of the water ports in just a few seconds after the motor is started up. If this does not happen in a few seconds, stop the engine immediately and contact your dealer.
- Make sure that the water has completely run out of the engine water ports before laying the engine down after use. Once the engine is taken off the transom, keep the motor in an upright position for 2 minutes allowing the water to completely run out.

Aquastrike
Inflatables (Pty) Ltd
Reg. No. 2012/042246/07

- Please note that your warranty will be automatically cancelled should you skip the 1st two services, run incorrect 2-stroke oil, incorrect mixture, or damage due to incorrect fitment of spark plugs.
- It is the purchaser's responsibility to maintain and look after the engine according to the instruction manual.

B) WHAT IS COVERED BY THE WARRANTY

- Only the physical parts are covered by this warranty provided the damage was not caused by negligence or failing to maintain the engine.
- This warranty is covered for a period of 24 months from the day of purchase for private use only. (For commercial use only 3 months)

C) WHAT IS NOT COVERED

- Damage due to neglect of the engine.
- Damage to abuse of the engine.
- Propeller, propeller shaft, cotter pins, split pins, seals, damaged oil seals.
- Heat seizure on pistons, rings, engine bearings, impellor, crank, crankshaft, transmission gearing and gearbox assembly.
- Corrosion or rust.
- Any transport charges (The purchaser is liable for all transport charges should an engine be sent back for warranty repairs)
- Labour on warranty claims.
- When ever the crankshaft position shifts or goes out of position (not covered as this can only be caused by hitting the surfaces, sand, and hard object under the water)
- Tuning / settings
- No electrical components are covered.
- Loss of power or compression due to negligence or non-maintained.
- Damages caused by dirt or water that entered the engine.
- Carburetion blockage or carburetion wear.
- If tempered with the engine by means of modifications, using incorrect spark plugs, propellers etc or parts not designed for the engine.
- The purchaser is at no means authorised to work on the engine during the warranty period.
- Warranty repair will be done only once inspected and approved by the dealership.
- The warranty is by no means transferable.

Signed at MOSSELBAY on the 12TH day of OCTOBER 2024.
